About the Tribeca Festival

The Tribeca Festival brings artists and diverse audiences together to celebrate storytelling in all its forms, including film, TV, VR, games, music, and online work. With strong roots in independent film, Tribeca is a platform for creative expression and immersive entertainment. Tribeca champions emerging and established voices; discovers award-winning filmmakers and creators; curates innovative experiences; and introduces new technology and ideas through premieres, exhibitions, talks, and live performances.

The Festival was founded by Robert De Niro, Jane Rosenthal, and Craig Hatkoff in 2001 to spur the economic and cultural revitalization of lower Manhattan following the attacks on the World Trade Center. Tribeca will celebrate its 22nd year from June 7–18, 2023.

In 2019, James Murdoch's Lupa Systems, a private investment company with locations in New York and Mumbai, bought a majority stake in Tribeca Enterprises, bringing together Rosenthal, De Niro, and Murdoch to grow the enterprise.
